

**REMARKS**

Claims 43-62 remain pending in the application. The Examiner indicates that the claims contain 2 patentably distinct species, with Group I encompassing claim 58, and Group II encompassing claims 59-62. The Examiner further indicates that claims 53-57 are generic to both species. Applicant hereby elects to prosecute the species identified by the Examiner as Group II (claims 59-62) for prosecution on the merits, and understands that the claims will be restricted to such species in the event that no generic claim is held to be allowable.

Respectfully submitted,
